

Winter Camping Boots

Worst To Best

Fabric

Not really
waterproof, no
insulation

Leather

Sturdy, little
insulation. Will
freeze solid

Pac Boots

Great insulation.
Hard to snow
shoe in

Great insulation.
Easy to wear
and practical

NO fabric boots or leather boots, these will ruin your weekend

Winter Boots Made Better

When digging out the quinzee it's easy to get snow down into the lining of your boots. To avoid this, try wearing gaiters as well.
